

master IT^e

Manage and track your digital assets effectively

A comprehensive administrative and financial asset management service, from user allocation to cross-charging.

Real-time, overall view of your assets

- Access user and financial data to enable management by cost centre
- Track your assets' installation and deployment
- Access to dedicated dashboards to coordinate your upgrades

Optimised tasks

- Asset base updated by a dedicated team
- Breakdown of costs and cross-charging in line with your cost centre structure
- Simple data imports or exports via interfaces or file exchanges (human resource databases, etc)

Ongoing asset tracking

- Electronic acceptance statements generated and archived for any unforeseen issues
- Records of all previous equipment allocations and deployments

YOUR BENEFITS

- 1 Simplified cost centre administration** in line with your organisation
- 2 Budget control** thanks to accurate expenditure tracking
- 3 Easier decision-making:** utilisation and analysis of data provided
- 4 SaaS*-mode solution:** no additional investment or IT resources required

*Software as a Service

Master IT and its quality plan are ISO 9001-2008-certified
