# Track your digital assets with one click

This modular service offers permanent access to all the data on your leased equipment portfolio, simplifying your administrative management.

## Simpler asset lifecycle management

- All incoming and outgoing equipment processed by a dedicated team
- Track\* budgets and orders right through to delivery
- Check and approve supplier invoices online
- Generate and track equipment collection requests

## An accurate, comprehensive view of your digital assets

- Complete traceability: each asset is tracked by its serial number or another identifier of your choice
- Description of each piece of equipment and its configuration
- Relevant administrative and financial data

## Live access to data

- Customised, totally secure full web access
- Easily exportable standard reports, updated in real time

\*Depending on the financing method

## YOUR BENEFITS

- 1 Cost reduction** by outsourcing administrative tasks .....
- 2 Time savings** with instant access to regularly updated information .....
- 3 SaaS\*-mode solution:** no additional investment or IT resources required

\*Software as a Service
